

EZY SOLAR PANEL MOUNTING RAILS

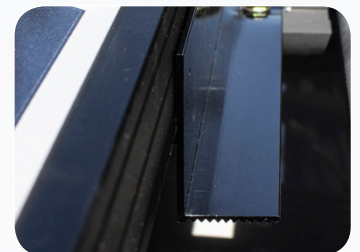

Twin Pack Rails for easy mounting of Solar Panels to a variety of surfaces

Product Model No.	Weight	Dimensions	RRP
KT70747	500g	800mm (L) x 50mm (D) x 42mm (H)	\$49.95 Inc. GST
KT70748	500g	800mm (L) x 40mm (D) x 32mm (H)	\$39.95 Inc. GST

The KT EZY Rails are ideal for mounting solar panels to a variety of flat surfaces very easily. Rather than two box channel rails, KT EZY Rails are a one-piece solution which can be adapted to suit all a variety of Solar Panel sizes.

The EZY Mount Rails come with pre-drilled holes for easy and secure mounting. The unique design allows an important air gap from the mounting surface, allowing ventilation and preventing overheating and water ingress.

KT EZY Solar Panel Mounting Rails are manufactured using an anti-corrosive, robust anodised aluminium extrusion making them suitable for Automotive and Marine applications.

Applications

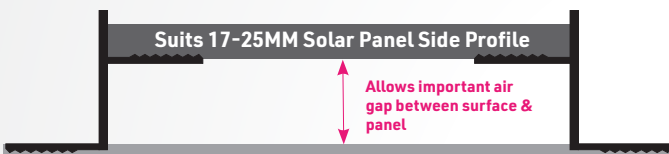

Key Features

- ✓ Packs contain 2 x 800mm long EZY Mounting Rails
- ✓ Robust anodised aluminium extrusion
