

PORTABLE BATTERY BOX WITH VOLTMETER & POWER ACCESSORIES & 50A QUAD-CONNECT

Simply add a 100Ah battery and access power & voltage readings any-time!

Product Model No.	Weight	Dimensions	RRP
KT71204	1Kg	420mm (W) x 230mm (D) x 290mm (H)	\$129.00 Inc. GST

The innovative KT Portable Battery Box is designed for transporting Deep Cycle Batteries with ease, monitoring battery voltage and powering or charging 12 Volt devices from one central unit.

Fitted with the KT 50Amp Innovative Quad-Connect, designed for easy connection of 4 x 12V 50Amp Devices.

Designed to suit most 100Ah batteries, the KT Battery Box features high current bolt terminals to connect high current loads, making it excellent for applications including 4WD off-road adventures, camping trips, work applications and more.

Applications

Key Features

- ✓ 1 x 50Amp Quad Connect - 4 Inputs / Outputs
- ✓ 1 x In-Built Battery LED Voltmeter
- ✓ 2 x 12V Marine Grade Cigarette Accessory Sockets
- ✓ 2 x USB Inputs (1 x 1Amp & 1 x 2.1Amp) 3.1Amp Total
- ✓ 1 x 16Amp Circuit Breaker for Socket Protection
- ✓ Illuminating RESET/OFF Switch for 16Amp Circuit Breaker
- ✓ High Current Positive / Negative Terminals
- ✓ Securing Strap with Clip
- ✓ Black Screws & Fittings Included

Specifications

Material

Robust ABS Plastic
