

METAL INSERT CABLE TIE RANGE

The KT Metal Insert Cable Tie Range is made from high-performance grade materials suitable for indoor and outdoor applications.

With their low profile head and stainless steel locking device, the metal insert cable tie range ensures maximum strength and ease of use whilst preventing snags.

FEATURES:

- High-performance cable ties made from UV resistant black Polyamide Nylon 6.6
- Non-magnetic stainless-steel locking device ensures maximum strength
- Low profile head is easier to pull through bulkheads and prevents snags
- Halogen free, silicone free
- Suitable for indoor and outdoor applications
